

Suite QR Order — Order & Payment SEQUENCE

One order, end to end · including the webhook path that fires even if the guest closes the tab

Card data never touches our server — Stripe-hosted Checkout, PCI scope stays with Stripe

Idempotent notify — webhook and browser-return can both fire; the owner is messaged exactly once

Server-enforced cooldown — the 30s double-tap block can't be bypassed by re-scanning the QR

Fixed price €1,500–€2,000 · ~6 weeks to all 86 rooms Waseem Iftikhar — Full-stack / AI Engineer
